STRATHCONA NEWS

LITTLE BUSINESS AT STRATHCONA COUNCIL.
Large Number of Ratepayers Present Expecting Further Developments in Connection With Edmonton's Other But None Came.

There was little business of importance at the regularly weekly meeting of the Strathcona city council last night. A large attendance of ratepayers were present, evidently in anticipation of more developments in connection with the Strathcona street railway, but nothing of consequence developed. The proposed lease of an agreement with Edmonton was presented, but was on motion ordered to be laid on the table till after the voting on the agreement with the Strathcona Radial Tramway Company.

Mayor Mills was in the chair, and there was a full attendance of aldermen.

The Communications.
F. C. Jansson, secretary of the Strathcona Radial Tramway Co., stating that the company was willing to reimburse the city for the advertisement of the by-law in the daily papers.

The communication was filed. W. A. Grosbeck, mayor of Edmonton, wrote suggesting a conference with reference to the Strathcona railway franchise and endorsing the proposition submitted by the Edmonton commissioners. The communication was laid on the table till after the by-law was voted upon.

A. T. Sphen, of the Strathcona Rink association, wrote stating they wished to take possession on November 1st, and asking the city to remove all their goods and clean up the building. The city engineer was instructed to have the building cleaned.

R. Hagg, teamster at the fire hall, wrote asking for an increase of his salary to \$80 per month. The letter was referred to the fire and light committee.

Dane & James, Regina, asking for a debenture amounting to \$5,000 have been disposed of, and asking for full payment. The secretary-treasurer was instructed to reply.

W. H. Martin, for the Odd Fellows Building association, asking for the permission of the council to dig a hole to the rear of the hall to be used for dumping refuse, etc., pending the construction of the sewer pipe. The letter was referred to the board of health.

H. F. Sanderson, enclosing letter from C. S. Lott, Calgary, with reference to the purchase of the proposed park site on the bank of the river at the rate of \$500 per acre for twenty acres. The letter was laid on the table to be taken up later.

Officer Frank Harris, asking for an increase of \$5 per month, as he had been three years in the employ of the city. The letter was referred to the police committee.

Reports of Committees.
The committee composed of the mayor and city collector, on the question of the public library, reported in favor of a library, and that a by-law be submitted to make the money grant at the next municipal election.

A three-fifths vote of the ratepayers entitled to vote is required to pass the by-law.

A number of the aldermen thought it will be impossible to secure such a vote, as a large number of the ratepayers do not live in the city.

After some further discussion on minor matters, the meeting adjourned.

LOCALS.

Mrs. Armstrong, who lives near the Duggan street school, while working in the house several days ago, fell off a chair on which she was standing, with the result that she inflicted a severe cut on her hip. She has since been confined to bed.

A big curling meeting is to be held in the curling rink on November 15th, for the purpose of selecting skips and rinks. It is understood that only those who have secured tickets will be selected as skips and players.

By an inadvertence in an item yesterday referring to the new Westsask railway station, the word Strathcona was substituted.

Alexander Cameron, of Strathcona, received a message several days ago, announcing the death of his wife at the home of her father in Minnedou, Man. Deceased had been suffering from consumption for some time. She leaves two children.

Deliveries of oats have been quite brisk at Strathcona the past few days, the prevailing price being 31 cents a bushel.

The voting on the three by-laws being submitted to the ratepayers at Strathcona is taking place today. It is probable that a large vote will be polled.

Denied Admission.

Montreal, Oct. 28.—Commandant Benito Sylvan, a doctor of law of the faculty of Paris, and a D.C.O. of His Majesty Emperor Meokik of Abyssinia, was refused admittance at the Montreal hotel today because he was colored. He said: "It is a very silly and ridiculous that in a country imbued with generous traditions of France and which claims to be under English law, reported to be so liberal, that people can adopt principles as retrograde as those which are still prevalent among the upholders of slavery in the southern states."

SONG OF STRENGTH.

Be not afraid, for sun and moon and stars
 Lean down from heaven where the
 Heart's hopes are.

It is their light that makes shadows
 appear.

How foolish then to waste the pre-
 cious hour!

Be strong,
 For gentle peace will come at even-
 When little heartaches bring their joy
 along!

Be strong!
 Should the trials of thy busy day
 Fight on! Push on manly into the
 fray!

And fight the fight that God seems
 to fight!

And set thy foot upon the path of
 right!

Be strong,
 And consecrate with love life's holy
 hours.

And let them blossom with snow-
 white flowers.

—William J. Fischer.

SOCIAL.

Mrs. Bishop, so entertaining at
 home.

Mrs. Cecil Cardley has issued in-
 vitations to "at home" on Friday.

Mrs. J. J. Young, of Calgary, is
 coming to Edmonton today and will
 be the guest of her sister, Mrs. Gray-
 son, on Thanksgiving Day.

Mrs. Boulton has the hostess at
 a pleasant small tea yesterday after-
 noon at the Cecil Hotel. She was
 assisted by Mrs. Wheeler, the guests
 including Mrs. Turnbull, Mrs. Bush-
 man, Mrs. Thompson, Mrs. Wil-
 liamson Taylor, Mrs. Williams, Mrs.
 Hinton, Mrs. Kay, Miss Kilpatrick,
 Mrs. Henderson and Miss Harris.

ANNOUNCEMENTS.

Mrs. W. B. Poucher, 635 Fifth
 Street, will receive for the first time
 this autumn on Friday, November 1st.
 Mrs. Bower Campbell, who is now
 established in her new residence, 266
 Hardisty avenue, will receive on
 Friday, November 1st.

WHITE-TRITE.

A quiet wedding took place at the
 home of W. E. Noble, Sixth street
 when Charles F. White, of Sussex
 N.B., was married to Miss L. Trite,
 Edmonton, a graduate of the Lady
 Stanley Institute. The ceremony was
 performed by the Rev. A. M. McElroy,
 of the first Baptist Church. The
 bride was married in a becoming
 tailor-made blue dress travelling coat
 and, immediately after the cere-
 mony the bridal party left for an ex-
 tended tour to California and the
 Southern States. After their tour
 they will settle in Sussex, N.B., where
 the groom has large lumber interests.

POST-NUPITAL RECEPTION.

A delightful informality character-
 ized the post-nuptial reception of Mr.
 Anderson held yesterday afternoon at
 her artistic and homelike cottage of
 Sixth street. During the call-
 hours visitors flocked to her home
 with greetings for the newlyweds
 and bride. She wore her wedding
 dress, a charming gown with the un-
 mistakable coquetry of the Parisian de-
 signer evident in its graceful drap-
 ing. Like the entire trousseau, which
 it forms a part, it is from a
 European house and is of white point
 d'Alençon over chiffon silk, made it
 a becomingly modified Empire design
 and with various folds on trains at
 the back and the front of the bodice
 prettily arranged with a Marie An-

toinette fleck of point d'Alençon
 and silver applique, rows of tiny
 white chiffer, trailing, ruffling
 the graceful lines of the front.

In the drawing-room cabinets and
 tables were crowded with a display
 of wedding gifts that Edmonston has
 perhaps never seen equalled. Every-
 where, it seemed, through the recep-
 tion rooms also, the silver was
 greeted with fascinating glimpses of
 the china, cut-glass and silver pieces
 that went to make up the hundreds
 of wedding gifts showered upon this
 popular daughter of the Minister of
 the Interior and Mrs. Oliver. Vases
 of tall, gleaming chrysanthemums de-
 corated the rooms, and with the open
 fire a cheerful contrast. In the
 cloaky interior to the chill autumn
 evening out of doors.

Mrs. Anderson was assisted in re-
 ceiving by her sister, Mrs. Bishop,
 grown to shades of brown and tan,
 presided at the tea, refreshments
 being passed by a charming trio of
 the bride's more intimate friends—
 Mrs. Arthur Hamilton, who wore a
 smart black silk net gown over white
 silk, with a large hat trimmed with
 velvet, more of pastelio purple shades.
 Miss Eleanor Taylor, in a delicately
 pretty gown of white silk organza,
 with fine Val trimmings, and Miss
 Mary Gray, who wore a most artistic
 frock of coral pink point d'Alençon over
 pink tulle with Dutch yoke outlined
 in pink embroidered lace. During the
 approaching dinner hour alone made
 the visitors take their leave of the
 fascinating bride and groom and
 their young mistresses.

THANKSGIVING AND HALLOWEEN.

Continued from page 1

Thanksgiving day is an annual festi-
 val of thanksgiving for the harvest of
 the closing year. The custom of
 having a thanksgiving festival dates
 back many centuries, prayers for the
 past forming part of old church ritu-
 als as it still does. But the celebra-
 tion was usually limited to the relig-
 ious services held in New England
 the Pilgrim fathers made it their
 great home festival for the year.
 The earliest harvest thanksgiving
 was kept by them in 1621, and since
 that day the celebration has grown
 from year to year in importance in the
 United States, spreading also to Can-
 ada. In 1869, in both the States
 and our Dominion government procla-
 mations fix the date to be annually
 observed by these nations as a day
 of thanksgiving for the benefit and
 welfare enjoyed by them.

Ontario By-Elections.

Toronto, October 29.—In the pres-
 ence of a new member for North
 Wellington, in place of Thomas Mar-
 tin, whose death occurred last week,
 Alexander M. Martin, Liberal, was
 elected by a majority of about 400.
 The contest was very sharp at any time
 since the Conservative majority was
 elected, leading at last a few poll-
 ing divisions. In the London by-
 election, to fill the vacancy made by
 the resignation of Hon. Charles Hy-
 man, minister of public works, Major
 Thomas Boulton, Conservative, was
 elected by a majority of 1,000 over the
 Yule Union candidate, J. D. Jacob.
 Voting was very light, and the result
 was a surprise to a great many
 Londoners. Major Boulton was sur-
 prised on the most anxious friends.
 He polled 2,200 votes to Jacob's 2,172.
 His opponent, the Conservative, of
 East Northamptonshire returned C. L.
 Owen, Conservative, in place of
 Edward Cochrane, deceased. The
 Liberal candidate was A. M. Macleod.
 The Conservative majority
 was over 100 votes.

RANGE

is an ideal baker, the construction
 of the oven being such that
 every heat unit has to pass com-
 pletely around it with all its
 warmth retained before the
 smoke and waste can escape up
 the chimney. The heat travels
 from the fire box across the top
 of the oven, down the back and
 then forward again under-
 neath, until it strikes a baffle
 plate, around which it circles
 and goes to the chimney. The
 temperature of the oven in the
 Penn Esther is always
 even—there is no possibility of a
 gust of cold air spoiling a
 baking.

ANNOUNCEMENT

The new dye works connected with the Edmonton Pantorium is now
 completed, and all the colors and chemicals used in an up-to-date clean-
 ing and dye works received.

We employ an expert cleaner and dyer, coming direct from Birm-
 ingham, England. After thirty days' trial, now passed, we are satisfied that
 we can give you better dyeing and cleaning than you have heretofore re-
 ceived.

We will use nothing but the best dye stuffs and chemicals and will en-
 deavour to get the work out in as short a time as possible and at the low-
 est price.

Do not send your orders elsewhere till you give us an opportunity to
 show you what kind of work we do.

Yours for better cleaning and dyeing.

BULLETIN CO., LTD., DUNCAN MANAGER.

WEDNESDAY, OCTOBER 26, 1937.

THE INCREASED TAX-RATE.

The city assessor, after the receipt of customs and duties, and the ratemakers are receiving practical and personal demonstrations of what it costs to run the city.

The total rate of taxation for the current year is 13½ mills on the dollar—an increase of 3 mills over the rate for last year. This increase is made up of increases in each item going to make up the total rate. The general municipal rate has grown from 7½ to 8 mills; the debt service rate from 2½ to 3½ mills, and the school rate from 2½ to 3½ mills. The current expenses of the city, paid from the general funds, are more than ten per cent. heavier than last year, that the amount required for sinking funds to meet debentures is three and two-thirds as large as that last year, and that the school expenses this year are 125 per cent. heavier than last year. The phenomenal increase in the debt service rate is apparently due in part to the fact that last year's debenture rate was far below the normal.

The increase of the total tax rate indicates a tendency to continue, and continued, must be attended in future by very undesirable results, and suggests that one of the standing rules of next year's council should be to make the most stringent economy in non-essential items, to the end that the tax rate should not be increased, if it cannot be reduced.

It will be remembered that the assessment of 1936 was made on a very much higher rate than that of preceding years, being practically an assessment at face value instead of at assessment at two-thirds value, which was understood as the general rule in previous years. As a counterbalancing provision, the tax-rate was cut from 16 to 10½ mills. This meant that the assessment was made on a value higher than formerly, his taxes were not proportionately increased.

The assessment this year has presumably been made on the same basis as last year—the market value of the property. Unfortunately, however, the counterbalancing provision of a low tax rate does not appear to have been kept sufficiently in view. While the assessment has been advanced in keeping with the advance in the value of property, the tax rate has also been allowed to mount up to 3 mills more than last year's rate. This means not only that the rate payer pays taxes on an increase in valuation, but that on this increase amount he pays a rate nearly one third greater than he paid last year on the smaller sum.

The result of this tendency is not far to seek. If allowed to increase next year as rapidly as during the present year, the rate of taxation would be about up to the former rate of 16 mills. But this rate would be paid, not as formerly on two-thirds value of the property, but on its full value. Under this condition, the ratepayer, while taxed at nominally the same rate, would be paying one third more taxes in proportion to the value of his property than he paid two years ago. This means that if on a lot worth \$500 two years ago the taxes then were \$5.25, the taxes on the same lot next year if worth \$1.00 would be \$16.

A "high" assessment is evidently only when accompanied by a "low" tax rate. But the experience of the present year points the moral that a tax rate is one of the things it is hard to keep down. A council with a large assessment to work on is very apt to forget that a seemingly small tax-rate may not correctly represent the burden on the ratepayer, and it is therefore expedient to look carefully at it confronted by a much smaller assessment and a tax-rate which date not be increased. It should be the first and constant duty of next year's council to prevent any increase in the rates, and to reduce them if possible. A high assessment coupled with a high tax-rate spells trouble.

INCONVENIENT HISTORY.

The inconvenience of having a history was revealed the other day when Regina Leader reproduced an editorial which appeared in the Regina Standard some two years ago. The Standard has recently been condemning the Federal Government for turning the public lands over to the new provinces. This is what the Standard thought when the Autonomy Bill was under discussion.

"The Dominion," said the Standard and at that time, "will retain control of the Territories' public lands. Perhaps, under the circumstances,

"this is best for all concerned. The great needs of the new Provinces at first will be population and railway development. To secure the former, the inducement of free land must be continued to be offered, and to secure railway extension, lands, and the proceeds of lands, are usually granted. Thus, we see that if the new Provinces owned the unutilized lands they would have practically to give them away. At the same time the cost of land administration would have to be borne. The duties of the Immigration Department, the would tell the new Provinces. A handsome 'could not be easily equipped for these generous duties. It took the Federal authorities many years to bring immigration work up to a present state. They have it now in a state of high efficiency, with experienced agents at work in various parts of the world. It is important that the good work shall continue to go on unimpeded. A handsome 'equivalent, either in cash or in interest bearing credit, will suit the new Provinces much better than the 'responsibilities which are involved in the ownership and control of the public domain.'"

Along the same line the British Whig of Kingston refers to the opinions past and present of a journal nearer home. Says the Whig: "The Edmonton Journal a year ago 'called for the abandonment of Foster, Fowler, Peck, Bennett, all the politicians who were mixed up in the insurance scandals. 'We cannot,' said our contemporary, 'afford politically to carry these men. Their responsibilities which are involved in the ownership and control of the public domain.'"

"We cannot," said our contemporary, 'afford politically to carry these men. Their responsibilities which are involved in the ownership and control of the public domain.'"

"What produced this most singular change? There has been some talk of subsidized papers by the Journal, and there would be less occasion to make a note of it but for the performances of the Journal and other organs of its kind."

CASTING THE BURDEN ON THE PATRON.

The concluding paragraph in the application form which a prospective patron of the city waterworks system is required to sign, reads as follows: "It being understood that the Edmonton City Water Works have the right at any time to substitute in lieu of the above special rates, the rate of 25 cents per 100 cubic feet, and . . . further covenant and . . . with protect and save harmless the Edmonton City Water Works from all claims for damages caused by the bursting of any pipes used for the supply of water under this application."

In other words, if the water pipes burst and flood a cellar, the city is not to be held responsible, whether or not the bursting was due to over pressure on the pipes, faulty material or improper workmanship of the city employees.

This is surely safeguarding the city at the sacrifice of the citizen. It is necessary of course that the city be safeguarded against actions for damages caused by carelessness or fault on the part of the citizen. But that the patron should be forced to suffer the loss of damages done to his property through the fault of the city. Yet it is the apparent intention of this clause to force him to do so. That the clause would be upheld by a court is doubtful, but in the majority of cases the citizen would suffer the loss rather than risk the uncertainty of litigation.

So long as the citizens are free to take or not take service, the city may be able to invigilate its patrons into signing away their rights to justice; but when the city tries to enforce the installation of services there will be trouble aplenty. To force a ratepayer to install a water service and at the same time to deprive him of the common right to sue the city for damages caused by the breaking of the service, would be coercion of the double-barrelled variety.

For Theft of \$1,000.

Winnipeg, October 26.—James A. Robinson, of Winnipeg, charged with the theft of a thousand dollars from George Edwards, of Hamilton, Man., came up for trial before Provincial Magistrate McMillen this morning and was sent up for trial.

POLITICAL

The Lethbridge Herald is advocating the passage of legislation in Alberta that will prevent the Japs and Chinamen from having votes in this province. British Columbia has such a law. The Herald says: "The Herald says that Hon. Chas. W. Cross, the attorney general, is in favor of such a law in Alberta. We hope so. If he is he ought to be able to bring in legislation carrying out the proposal at the next session."

Frank paper: The provincial convention of the Liberal party held at Calgary yesterday took the form of a demonstration which indicated that throughout Alberta the Liberal party is united and enthusiastic over its prospects. For a sweeping success in the coming Dominion election, even though it cannot come for nearly a year hence. Every action of the province was represented by a full delegation and the utmost harmony prevailed. There was on the part of all a feeling of the greatest confidence in the merits of the policies of the party as they will be laid before the people in the coming contest. The enthusiasm that prevailed was pronounced in contrast to the apathy that marked the gatherings of the Conservatives during the tour of their leader through the west. It is quite apparent that there will be no unappreciated reversal of feeling there is not recorded in Alberta an opinion in favor of the Liberal party when the election rolls around.

Calgary News.—Hon. Frank Oliver is not an office chair cabinet minister. He is a man of the people. He is a man who takes his seat in parliament next month it is safe to say he will be the best-informed man on the West and conditions out here of any man who ever held the position of minister of the interior. He has visited every nook and corner in the Western provinces during the past month. He met the people, heard their views, visited most of the offices of the department and familiarized himself with the conditions he was to be responsible for. He is a man of capital, a perfect encyclopedia of knowledge about the West. Among the points he made a call at recently were Calgary, Edmonton, Frank, Mac-

leod, Pincher Creek, High River, Cardston, Lethbridge, Medicine Hat, Vermilion, Vegreville, Lloydminster, Prince Albert, Redburn, Saskatchewan, Ingleton, Gladstone, Yorkton, Winnipeg, Indian Head, Regina and Moose Jaw. That is a pretty extensive trip, isn't it, and can't be equalled by any other cabinet minister.

Vergivole Observer.—In certain of the constituencies a Canada there are those who aspire to political honors and either with or without the sanction of the government announce themselves as 'government candidates.' If the term means anything at all it means that the parties in question have the endorsement of the government in their candidacy, as opposed to the 'opposition' candidates. In the present constituency of Victoria there is a case in point. One of the possible candidates for the Liberal nomination is credited with stating that he is the choice of the government for the position.

To the mind of the Observer there should be no better reason for leaving that candidate at home than that very statement. What earthly right has the government to select candidates in their choice of a candidate. Let it be known that the Liberals of Victoria will not stand for any interference in their choice of a candidate. The Liberal candidate, whoever he is, will be chosen in open convention by delegate, representing as fully as possible the whole of the constituency. The candidate so chosen may then call himself the government candidate if he so desires, but until the convention is held and a candidate properly selected no man has a right to the Liberal nomination.

In justice to the government it must be said that the men who there have repeatedly expressed themselves as opposed to any interference in the selection of a candidate. After a convention has been held the candidate chosen becomes the government candidate but until that time the government has no choice of men. This matter was referred to Hon. Frank Oliver when he was here recently. The honorable minister, in terms characteristically emphatic, declared that he was on the part of the government to built on the Liberal nomination. To a certainty it is a thing which the Liberals of Victoria will not endorse.

CONDITIONS

NEARLY PERFECTLY. The conditions of this competition are perfectly simple. All you have to do to fill in the last line of the Limerick which is shown below and then send it, accompanied by a TIN LID (with label attached) of a package of Lipton's Tea, Gold, Red, Pink, Orange, or Blue Label or Lipton's Coffee, (enclosed lid only), which outline the reader to send in Limerick. You may send in as many Limericks as you like so long as a TIN LID accompanies each Limerick.

Great Slaughter Sale of Clothing, Boots, Shoes & Furnishings

Sale Starts
Wednesday, Oct. 30

Store open every night
till 10 o'clock.

Owing to the fact that we have too large a stock and also that money is scarce, we have decided to place our entire stock on sale at slaughter prices. It has been a known fact ever since we opened business that we have given better value for the money than any other store in the city. Our expenses have been small and you have reaped the benefit. Now, for the next 10 days we are going to give goods away regardless of cost. We need the money and must have it. It is not necessary to say that our stock is all new for we only opened for business in April, so that you can see it is not a matter of getting rid of old stock.

HERE ARE A FEW OF THE PRICES

Sale Lasts
For 10 Days

Come with the cash.
Positively nothing sold
on credit, not even till
tomorrow.

John C. MacDonald, Prop.

INVESTIGATION OF LUMBER COMBINE RESUMED.

(Continued From Page One)

"This name would be eliminated from the list of harmonious manufacturers, and the members of the association would be notified of his alienation."

"What is meant by the clause in the bylaw referring to such a case, namely, that the members of the association must take cognizance of the unfair tactics of a manufacturer by failing to confine his sales to the members of the association?"

"It means a member of the association shall not deal further with such an unfair manufacturer."

Referring to the substitution in the 1907 bylaws of the clause "regular retail dealers," for "all dealers in the 1906 bylaws," "member of the association," witness said there was no difference in the meaning. This clause referred to the dealers to whom manufacturers might sell and not the sales with the association.

Definition of Legitimate Dealer.

Witness was asked what legitimate dealer meant.

"A man doing a legitimate lumber business," he replied.

"Does it not mean that he must be a member of the association before he may be called a legitimate dealer?"

"No. It means any dealer who has an established business."

"Was the clause in the 1906 constitution requiring retailers to purchase only from harmonious dealers lived up to?"

"Yes."

"And did the manufacturers live up to the agreement?"

"Yes."

"Would it not be a serious thing for a manufacturer to be placed on the black list, by being dropped from the harmonious list?"

"It would be something for him to consider. Large operators have told me that they would not like to be again dropped from the list, having been struck off once and reinstated."

"If a manufacturer were struck off the harmonious list he would soon know of it?"

"How was an unharmonious dealer dropped from the harmonious list?"

"A new list was issued, with the unharmonious manufacturer's name omitted."

The witness stated retail dealers, members of the association, who bought lumber from unharmonious dealers were liable to suspension from the association. He knew of no case in which a retailer had been suspended. As secretary of the association he received a salary of \$2,000 a year. His

business was to investigate complaints.

Central Number of Yards.

Referring to the joint system in vogue in the Western Retail Dealers' association, witness stated there was supervision over the number of yards in any one district. His business as secretary was to regulate the number of yards. A new yard was not often established if the consumption of lumber was less than 30 cars per annum. The establishment of a second yard was generally objected to by the retailer already established.

"Suppose a retail outsider went into a district and established a yard without the authority of the association, what happened to him?"

"Unless he was a member of the association his chances of doing business successfully were diminished."

"Do you know of any case where an independent retailer was successful in fighting the association?"

"Not many. Some have started out avariably become members of the association."

Witness stated that there never had been any agreement between the Western Retail Lumber Dealers' association and the Mountain Millmen's association. There was no reciprocal agreement as associations, but as individual honorary members of the W. R. L. D. association the members of the Mountain Millmen's association were considered in the same light as other honorary members.

In reply to a question witness stated that every member of the association was urged to patronize only the manufacturers in harmony with the association. He was urged to do this even though it cost him more for his lumber. In the case of the retailers in Southern Alberta in 1908 when American dealers were selling lumber lower than the mountaineers' association, the mountaineers rather than change their prices for this particular district, refused the orders in Southern Alberta that they were at liberty to buy from the American dealers.

The court adjourned until this afternoon, when Mr. Cockburn completed his evidence.

Further Recurrence in Stocks.

Montreal, Oct. 30.—The tone of the stock market continued unsettled today and while the prices of many securities held at the level of yesterday's declines, some issues took a further drop. Montreal Power was a notable case, opening at 83 and selling off to 81.50, while Mackay was off to 41.25. Canadian Pacific recovered a new low level on a movement at

1.45, but the dealings are very small. Other features of the trading were Lake of the Woods, Nova Scotia, Detroit 35 1/2, Toronto railway 80, Half-fax railway 90, Rio 27, Dominion steel 14, Twin City 73. The market was quiet.

G.T.P. CLOVER BAR BRIDGE

The Largest Bridge on the New Transcontinental Road Between Winnipeg and Edmonton—Substructure Alone Costs About \$500,000

Kipling in his story of the bridge builders and a score of minor writers have brought home to the public and even to the engineers of the modern engineering world and the imagination there lies in the details of the work as it progresses month by month.

This Edmonton may see for itself any day as the Bulletin's representative goes on a visit with Dr. Martin Murphy, the government inspecting engineer, to the new G. T. P. bridge being built across the Saskatchewan at Clover Bar. The bridge, which is over a quarter of a mile in length (about 1,500 feet), is the longest and highest and largest bridge in every way on the new Transcontinental road from Winnipeg to Edmonton. The steel superstructure will be laid across four massive concrete piers, 100 feet high above water and extending at least as many feet below. Fourteen sets of double pedestals with two long slabs, all of concrete, also to be the support of the approaching the actually weighty steel superstructure.

The length of each span between the piers will be 200 feet. The approximate cost of the concrete substructure which is being built by the May Sharn Company, will be in the neighborhood of \$500,000. The construction of this portion of the bridge began last autumn and several months ago it still is occupied in the old, steady work that goes to build a bridge that will stand.

Scene of Interest. The scene at Clover Bar, the construction now is one of picturesque interest. On the river, the bridge piers are in the water, and the concrete piers are being built and the high east end of the bridge is being built. The river is dotted with concrete pedestals, like the river severely belated in line, standing in varying sizes to the west, and the bridge will run out to meet the graded track.

Along high shores primitive temporary buildings lie to form the camp that houses 400 men and stable 70 horses of horses, all built up at present upon the works. The men mostly live on the east side of the river, where construction is in progress, and where the substructure is complete. Several long houses have been built by the contractors for their accommodation, running here and there, and the men for themselves and the hillside is a carefully dotted with tents and huts, and at least possessing the quality of being clean and healthy.

The new quarters of the engineering staff under Mr. Macgregor, C.E., and of Mr. Grant, the G. T. P. in the center of the bridge, are situated on the hillside with a view of the bridge, and the quality of the construction is in the center of the bridge, and the quality of the construction is in the center of the bridge, and the quality of the construction is in the center of the bridge.

Like Saxon Feasting Hall. The board walls of the engineer's office are lined with shelves which contain a business-like array of plans, books and instruments. Mr. Grant's living quarters and laboratory for testing the quality of the concrete are situated in the same excellent way with an eye to utility. A tidy mess room where shovels lean a regiment of any of turned delicacies seen each day these excellent meals served up to the officers staff by their Chinese cook.

Over the way the bridge, the dining room. From the chimney and the quality of the construction is in the center of the bridge, and the quality of the construction is in the center of the bridge, and the quality of the construction is in the center of the bridge.

In the long dining room were rows of tables neatly arranged for the evening meal. Cloths of white silk were covered them and a goodly array of white enamelware marked the men's place. Each table held also plates of good food in several varieties, and good wines.

That it is no small task to provide for the treatment of workers is evident from the amount of such machinery and many forces that together they must produce and maintain the massive sections of concrete substructure.

Detail is Building. To the uninitiated eye bridge building outside a heady and complexly detailed—combination of much machinery and many forces that together they must produce and maintain the massive sections of concrete substructure.

These when complete give up half of the immense amount of work necessary for their construction. The machinery and many forces that together they must produce and maintain the massive sections of concrete substructure.

Looking on the camp from a distance it is a half dozen or more of small hills with a forest of derricks and scaffolding stretching across the river. At close hand, it is a beehive of human activity with men's forms bounding up at every angle of timber and in each dim underground recess in process of excavation.

There are 15 engines in use, excavating, 9 derricks on pile-driving work, one steam-bucket excavator and

one other. The timber piers are to extend almost as far under water as they do above it. At present they will look small but the huge deep order water, is 27 feet by 41, they are in fact massive towers of concrete, or bell-shaped concrete, of varying size, those with a summit of five feet square having their origin in the ground some 25 feet below the surface. The clay in which the excavations are made is very soft. In digging for some pedestal a layer of sand was found and sent up to burn in the engine.

At present all the pedestals and end of the bridge are complete, the pier having a massive steel-lined protection on the side facing the current. This will act as an ice-breaker when the ice comes in in spring.

Progress is Work. On two of the piers men are active at work excavating. In a third they are ready to pump out the water and begin excavation. The process of work on each pier is steadily increasing. When, by the engineer's calculations, the concrete pier is complete, it has been located a timber casing is floated out to this point and sunk to the bottom of the river. The concrete is then driven about this in a lattice of steel, forming a steel frame in which when the water has been pumped out, excavation can be made.

A freighting gangway, used as a road for the concrete, is built on trestles across the river. The work of mixing the concrete is first washed by being run through a sluice of running water, then mixed in fixed proportion with cement and sand. These are dumped into huge mixers and the stuff hurled off to the pier or pedestal in course of erection.

Then by the concrete work, the steel spines of a bridge over which transcontinental trains will pass, are being built. The work of mixing the concrete is first washed by being run through a sluice of running water, then mixed in fixed proportion with cement and sand. These are dumped into huge mixers and the stuff hurled off to the pier or pedestal in course of erection.

The race is not always to the swift. Circumstances do have a great deal to do with our position, our salary, our place in life.

Locks do exist, but "black" is the sure winner. The greatest thing a man can do is to make the most possible out of the stuff that has been given him. This is success.

Diaperi said that man is not the creature of circumstances, but that circumstances are the creature of men. Semi-ready Tailoring was conceived—and it was carried out! The men behind it conquered custom, and prospered, and their every difficulty was but an added incentive.

Chance or Luck has never been added to a sound foundation. Being the initiative, the carrying out of the Semi-ready idea was the inflexible purpose to the end. There is always room for the men of forceful ideas.

SPORTING NEWS

HOCKEY IN NEW ONTARIO.

Port Arthur, Ont., Oct. 29.—The two cities of New Ontario, Port Arthur and Port William, are going into the game hockey in an extensive scale, and the preparations are already being made for the approaching season. On account of the isolated position of the two cities, it is next thing to impossible to get into a league with outsiders, though the two cities have been considered of making something in the Maritime provinces league. The handicap of isolation is partially made up by local rivalry, which is and always has been, very keen between the two towns at the head of Lake Superior. A league known as the New Ontario Hockey League, was organized last season, and experienced a very successful year, the hockey being of a good class, and the interest continued until the ice had gone. While it was the intention last year to confine the team to local players, the rivalry brought about the importation of some outsiders, among them being Vair and Hine, for mercy of Barrie, about whom there was much discussion. This year it is not expected the regulations in that connection will be so stringent, as the public is demanding hockey of the very best quality, and being willing to pay for it, the promoters are looking to the outside for players to bring their teams to the very high standard. Some have already been procured and taken up the road to Port Arthur, where Port William players have Turner and Beatty, formerly of the Canadian Soo, and Lightfoot of Stratford. It is expected the same city will send the best of the Harold MacKenzie who played with the Michigan Soo in professional league, and his brother-in-law, who was drafted for a try-out with the Canadian Soo professionals this year. Frank Clifton, who was with the team and the Canadian Soo is in Port Arthur to play, and it is expected that a speedy centre man who was with the Michigan Soo in the International, is also here. Besides those mentioned, others have been made to some of the best players in Eastern Ontario and also in the West. Each team last year had two teams in the league, and there are prospects of a fifth being entered this year. The game breaks largely.

COREY BREAKS RECORD.

Chicago, Oct. 29.—Albert Corey, the wonderful French marathon runner of the First Regiment Athletic Club, finished his 100-mile run from Milwaukee today and succeeded in clipping eighty-one minutes of the record of Henry Schmale, which stood for nearly a quarter of a century. Corey ran the entire distance with marine-like precision, carrying the 100 miles in eighteen hours and thirty-three minutes. Corey's run is one of the greatest athletic distances ever accomplished in this country. Perfect weather condition helped him to his record. It was this afternoon when Corey completed his long run at Washington street, and crossed the finish line. The Frenchman was fresh at the end and ran the last 100 yards with the speed of a sprinter, and crossed the line in the First Regiment Armory, at Michigan avenue and State street, at a leisurely pace. Corey left Milwaukee at nine o'clock on Wednesday morning for Chicago on a fifteen-hour schedule. He was guided by four automobiles, searchlights of which combined with the brilliant moonlight made his path as clear as day. Schmale's record, which stood for nearly nineteen hours, forty-five minutes. Corey lowered this, therefore, one hour and twenty-one minutes.

NEW YORK BRISSES KERR.

New York, Oct. 29.—Up to date Alvin Karpis, the English champion long-distance runner, has been over \$2,000 in the course of his racing in this country and Canada. On Thanksgiving Day at Fall River, he will undertake to defeat an American team of four runners, each man to run a distance of two miles and a half mile, and a half mile, and a half mile. The American team will be composed of Frank Kanaly, of Boston; J. Smallwood, of Long Island; the Canadian, Canadian, of Canada, who ran second to Longwood in the recent Marathon race; and A. Cook of Fall River, who ran as strong against Shurtle in his last race in this city. The Canadian has recently curtailed a long champion sprinter, in the person of Bobby Kerr, of Hamilton. The way manner in which this sprinter overtook the century in 9.4 seconds of the recent Canadian championships points to him being a very formidable rival in the forthcoming Olympic games at London next year. Now that Jack Morton, the British champion appears to have lost his former sparkling ability, it looks as if America will make a clean sweep of the sprinting event at London as it did in the Olympic games of 1900. Kerr has it that Morton is to be a competitor at the indoor championships to be held in Madison Square Garden the 28th and 29th of this month. As Morton does not take to the boards, it is safe to bet that the Britisher will not make the long trip with everything going to a defeat for him.

WINNIPESIG SIGN CRACK PLAYERS.

Winnipeg, Oct. 29.—Jack Winnie, the famous goalkeeper of the Pittsburgh Pirates, agreed to sign with the Winnipeg Strathconas. Bated of Ottawa, and formerly of Pittsburgh, will also sign as well as two international league forwards, one of whom is said to be Lake This will give the Strathconas the strongest hockey team ever seen in the west. All the players will report in Winnipeg within ten days.

SELL MONTREAL FRANCHISE.

Montreal, Oct. 29.—The Montreal Baseball franchise is for sale. It is stated here the people who backed it this year have lost about twenty-five thousand dollars. Mr. Farrell and Clark Griffith are prepared to sell at a reasonable price. Therefore the chances that there will be no sell will be a small one. It is stated that the Montreal league baseball team in Montreal are about even. It is stated that the Montreal street railway will be approached to take the franchise of Morris Farrell and Griffith's hands. It is also stated that a local candidate might one more take hold of the club and place Duclay back in the position of manager. If the franchise could be sold the club may have an inexpensive team next year.

EASTERN MAY BE OUTLAWED.

Toronto, Oct. 29.—The threat of Mike Cantillon, owner of the Minneapolis club, to break away from organized hockey and invade certain big league territory as a "prolet against the evils of the draft rule, has struck a responsive chord in Eastern League circles and the two leagues will probably get together at the meeting in New York next month and talk over the situation. Club owners in the Eastern League feel just as Mr. Cantillon does on the subject, and while they will hardly go so far as to say that they will join the outlaw ranks unless the rules are amended still they are very hot, and there is no saying what lengths they may go. President Joe Powers, of the Eastern League is also president of the National Association, the body responsible for the hockey rules which have caused the present controversy, and some of the Eastern League clubs are just about ready to take him to task, and insist upon the modification of existing conditions. In fact it is hinted that this feeling may have actuated the clubs which recently asked Mr. J. H. Harrow of Toronto, if he would be willing to accept the presidency of the National League, the improvement having gone abroad that Mr. Powers may feel constrained to throw up his position rather than concede all the points demanded by the Class A clubs. It is certain, however, that the Class A league will come together and whether they will break away from organized ball and form an independent association remains to be seen. "The big league clubs," said a prominent baseball man who would not be named, "are simply brokers trading and dealing the ball players, and the league is a step to their operations the better it will be for all concerned. They are simply brokers trading and dealing the ball players, and the league is a step to their operations the better it will be for all concerned. They are simply brokers trading and dealing the ball players, and the league is a step to their operations the better it will be for all concerned."

LONGBOAT WILL NOT RUN.

Toronto, October 29.—It is announced today that the Iron-Clad Club has wired Montreal withdrawing the entry of Longboat to defend the rest of the string for Thanksgiving Day.

SPORTING BRIEVES.

"In case we win the Inter-Collegiate Rugby Championship, and there is a remote chance of our doing so, we will apply to the C.A.U.U. for permission to challenge the winner of the Inter-Provincial Union for the Dominion Championship," said Roy Wainwright, who is in charge of the team. "The club is a half-mile from the river, which has brought the Ontario College team forward as a possibility for the big title."

"Tommy" Burns, the pugilist injured in the fight with the boxer near Trinidad, on Friday, has a sprained knee, is one of the greatest prizefighters in the world, who attended him here, may prevent him from again going into the ring.

The extraordinary fast time, 32.29 for 100 yards made by Shurtle against a time being run at River Park recently is accounted for, it having been discovered that the track, which is a half-mile in length, is not straight. The track is for trippers and people, which are used to keep approximately five feet out from the rail. Shurtle did not know this, and ran the race, which made the distance he covered considerably less than ten miles. The mark, however, was not stand as a Canadian professional record.

J. M. Johnson, owner of Nancy Hank.

24, and Todd, 21.34, has consigned all his trotting stock to auction to be held at Madison Square Garden, in New York, following the national show. Mr. Johnson is the president of the Grand Circuit.

William J. Cline, under whose management the Columbus American Association team has been running, has signed a contract to manage the team next season.

Jack Caffery, the runner, who has the proud distinction of being the only man that has ever won the Boston Marathon twice, and who has established a record of 100 miles in 10 hours and 10 minutes, has decided to break into the running game again. Caffery has been training for the past several months, and has just registered a card from the C.A.U.U. He says he is not sure if he is running in his old-time form. He will start in the Hamilton Herald race on Thanksgiving Day, and is confident of regaining his lost laurels.

Ray Wagner, a member of the national team, who has the proud distinction of being the only man that has ever won the Boston Marathon twice, and who has established a record of 100 miles in 10 hours and 10 minutes, has decided to break into the running game again. Wagner has been training for the past several months, and has just registered a card from the C.A.U.U. He says he is not sure if he is running in his old-time form. Wagner has been training for the past several months, and has just registered a card from the C.A.U.U. He says he is not sure if he is running in his old-time form. He will start in the Hamilton Herald race on Thanksgiving Day, and is confident of regaining his lost laurels.

Ray Wagner, a member of the national team, who has the proud distinction of being the only man that has ever won the Boston Marathon twice, and who has established a record of 100 miles in 10 hours and 10 minutes, has decided to break into the running game again. Wagner has been training for the past several months, and has just registered a card from the C.A.U.U. He says he is not sure if he is running in his old-time form.
